

Art in Medicine Elective

Course Director: Betsy Jones

Course Coordinators:

President: Rusha Alzghoul, MSII

Vice President: Vy Do, MSII

Secretary: Julieann Cherukara, MSII

Treasurer: Sadie Sudduth, MSII

Description:

Creative artistic expression has positive effects on many aspects of human life. It has been shown to promote better problem solving capabilities, increase capacity to learn new concepts,

Goals/ Objectives:

1. Students will gain an appreciation for how art can be integrated into their medical practice.
2. Students will develop their artistic acumen and learn to use art as a coping mechanism for the stresses of life as a medical student and physician.
3. Students will create a work of art that will be presented in a show upon completion of the course.

Course Format:

The course will be organized into 6 regular sessions, wherein the relationship between art and medicine will be discussed, and 6 studio sessions, wherein students will have the opportunity to create art.

6 Lectures sessions; suggested topics:

Lectures and Studio session dates may change.
