

## Continuing Care at HSC Diploma Program

Continuing Care at HSC is a program that allows students to continue their education at HSC after completing their diploma program. This program is designed for students who are interested in pursuing a career in the health care field and who have completed their diploma program. The program is a two-year program that allows students to earn their associate degree while working for HSC. The program is a flexible program that allows students to complete their degree in as little as two years. The program is a great option for students who are interested in pursuing a career in the health care field and who have completed their diploma program.
