AGRI COLA

AGRICOLA serves as the public catalog of the National Agricultural Library.

Covers all aspects of agriculture and allied disciplines
Animal science; veterinary science; entomology; plant science; forestry; aquaculture and fisheries; farming, farming systems and crops; agricultural economics; extension and education; food and human nutrition; and earth sciences and environmental sciences

ALTBI B

Resources for Alternatives to the Use of Live Vertebrates in Biomedical Research and Testing

Identify methods and procedures helpful in supporting the development, testing, application, and validation of alternatives to the use of vertebrates in biomedical research and toxicology testing

Topic areas include: General Topics on Alternatives to Animal Testing, Biologics and Vaccines, Carcinogenesis, Cytotoxicity, Ecotoxicity, Genotoxicity, Hepatic/Renal Toxicity, Immunotoxicity/Immunology, Neurotoxicity, Ocular Toxicity, Pharmacokinetic/Mechanistic Studies, Pyrogenicity, Pulmonary Toxicity, Quantitative Structure Activity Relationship (QSAR), Reproductive and Developmental Toxicity, Skin Toxicity, and Welfare (Animal)

Alt W B I C (A

Provides links to databases with information on biomedical research, biological science, animal science, veterinary medicine, fish and wildlife research, toxicology and specialized alternative methods

For guidance on searching AWIC databases, consult [Alternatives Literature Searching](#).

Eba

Article citations and abstracts (includes MEDLINE)

Chemical Databases and Bioassays Tools
Genetic Databases, Downloads and Tools

PbAg

Contains full-text articles relevant to the agricultural sciences, along with citations to peer-reviewed journal articles
